This is a decision on the "APPLICATION FOR PATENT TERM ADJUSTMENT," filed June 26, 2008. This matter is being properly treated as an application for patent term adjustment pursuant to 37 CFR 1.705(b).

The application for patent term adjustment (PTA) under 37 CFR 1.705(b) is **GRANTED IN PART and HELD IN ABEYANCE IN PART.**

The Determination of Patent Term Adjustment under 35 U.S.C. 154(b), mailed June 11, 2008, indicated a patent term adjustment (PTA) to date of 179 days. The instant application for PTA was timely filed June 26, 2008, prior to issue fee payment. Applicants argue that the application is entitled to an adjustment of 1,601 days.

The correct adjustment at the time of allowance is 1,410 days, as discussed herein.

Applicants argue that the adjustment was improperly reduced 39 days in connection with the reply filed January 22, 2002. Applicants argue that a reply to the non-final Office action mailed September 14, 2001 was timely filed December 14, 2001. Applicants argue that the reply bears a certificate of mailing date of December 14, 2001.

Applicants argument has been carefully considered, but is not found convincing. In accordance with 37 CFR 1.703(f), the date indicated on any certificate of mailing or transmission under § 1.8 shall not be taken into account in this calculation. Accordingly, the reduction of 39 days will not be withdrawn.

As undisputed, the application is entitled to an adjustment of eight days in accordance with 37 CFR 1.702(a)(2) in connection with the mailing of the final Office action on May 30, 2002.

As undisputed by applicants, the adjustment is properly reduced four days in accordance with 37 CFR 1.704(b) in connection with the request for continued examination filed September 3, 2002.

Applicants argue that the adjustment was improperly reduced 454 days in connection with the reply to the non-final Office action mailed November 18, 2002.

A review of the record reveals that the reply to the non-final Office action mailed November 18, 2002 was received February 24, 2003.

In view thereof, the proper reduction in this regard under 37 CFR 1.704(b) is six days. The reduction commenced February 19, 2003, the day after the date that is three months after the date that the non-final Office action was mailed, and ended February 24, 2003, the date that the reply was filed.

Applicants further argue that the application is entitled to an adjustment of 346 days in connection with the mailing of an Office on May 28, 2004.

A review of the record does not reveal that an Office communication was mailed May 28, 2004. An Office action was mailed August 11, 2004. Thus, the application is entitled to an adjustment of 414 days in accordance with 37 CFR 1.702(a)(2). The adjustment commenced June 25, 2003, the day after the date that is four months after the date of reply dated February 24, 2003, and ended August 11, 2004, the date that the Office action was mailed. *See*, 37 CFR 1.703(a)(2).

A review of the record reveals that the Office errantly accorded an adjustment of 61 days in connection with the mailing of the examiner's answer on February 23, 2006. A compliant appeal brief was filed December 13, 2005. Therefore, the examiner's answer was timely mailed within the meaning of 37 CFR 1.703(a)(4). Thus, the adjustment of 61 days has been removed.

Applicants do not contest the reduction of 24 days under 37 CFR 1.704(b) in connection with the appeal brief filed December 5, 2006.

Applicants contest the adjustment of 631 days in connection with the Board decision mailed May 19, 2008. Applicants argue that the correct adjustment in this regard is 1,061 days.

A review of the record reveals that the Board decision mailed May 19, 2008 reversed the examiner. Thus, in accordance with 37 CFR 1.702(e), the application is entitled to an adjustment of 1,061 days, as argued. The adjustment commenced June 24, 2005, the date that Notice of Appeal was filed, and ended May 19, 2008, the date that the Board decision reversing the examiner was mailed. *See*, 37 CFR 1.702(e).

In view thereof, at the time of allowance, the application was entitled to an adjustment of 1,410 days (adjustments totalling 1,483 days less reductions totalling 73 days).

The instant application for patent term adjustment also requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within three years of the filing date of the application. A decision is being **held in abeyance** until after the actual patent date. Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term for Office failure to issue the patent within three years. *See*, 37 CFR 1.703(b).

Applicants are given **TWO (2) MONTHS** from the issue date of the patent to file a written request for reconsideration of the patent term adjustment for Office failure to issue the patent

within three years. A copy of this decision should accompany the request. Applicants may seek such consideration without payment of an additional fee. However, as to all other bases for seeking reconsideration of the patent term adjustment indicated in the patent, all requirements of 37 CFR 1.705(d) must be met. Requests for reconsideration on other bases must be timely filed and must include payment of the required fee.

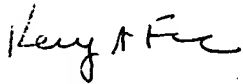

With respect to the over 3 year calculation, rather than file the request for reconsideration of Patent Term Adjustment at the time of the mailing of the notice of allowance, applicants are advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term pursuant to 37 CFR 1.705(d). The USPTO notes that it does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent and accordingly, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent.

Applicants are further advised that the patent term adjustment indicated in the patent will include any additional patent term accrued pursuant to §§ 1.702(a)(4) and 1.702(b).

The required patent term adjustment application fee of \$200.00 has been charged to applicants' deposit account, as authorized. No additional fee will be required if applicants are solely requesting reconsideration of additional time related to failing to issue the patent within three years in accordance with 37 CFR 1.702(b).

The application file is being forwarded to the Office of Data Management for issuance of the patent. The patent term adjustment indicated on the patent (as shown on the Issue Notification mailed about three weeks prior to patent issuance) will include any additional adjustment accrued both for Office delay in issuing the patent more than four months after payment of the issue fee and satisfaction of all outstanding requirements, and for the Office taking in excess of three years to issue the patent (to the extent that the three-year period does not overlap with periods already accorded).

Telephone inquiries specific to this matter should be directed to Petitions Attorney Alesia M. Brown at (571) 272-3205.
